

Emerging Markets

Fourth Quarter 2019

FACT SHEET

Strategy Highlights

Style: Disciplined Fundamental Value

Holdings range: 60-100

Strategy Assets: \$6 million

Inception Date: May 13, 2019

Objective

To outperform the MSCI All Country World ex-US Small Cap Index over a complete market cycle with lower overall risk.

Philosophy

- Companies that generate positive Free Cash Flow and return capital to shareholders outperform the market.
- Value wins in the long run.
- A disciplined methodology is essential to identify an advantaged subset of the universe.
- Fundamental research identifies companies with sustainable Free Cash Flows to maintain their assets, finance their growth and return capital to shareholders.

What We Buy

- High and sustainable Free Cash Flow.
- High and sustainable Shareholder Yield*.
- Strong Balance Sheets.
- In the cheapest 20% of our universe and undervalued due to non-structural, short-term factors.
- Undervalued due to non-structural, short-term factors.

Firm Overview

- An investment boutique specializing in long-only international, global and emerging markets equities.
- Privately owned, 70% by active partners.
- A division of Moody Aldrich Partners, an SEC registered investment advisor formed in 1988.

Disclosures

The Global Value Advisors Emerging Markets Composite contains fully discretionary equity accounts managed in the Emerging Markets style which seeks to outperform the MSCI Emerging Markets Index - Net over a complete market cycle.

Moody Aldrich Partners claims compliance with the Global Investment Performance Standards (GIPS®).

Global Value Advisors is a division of Moody Aldrich Partners, LLC. Moody Aldrich Partners is an independent SEC registered investment adviser. The firm maintains a complete list and description of composites, policies for valuing portfolios, calculating performance and preparing compliant presentations, which is also available upon request.

The Global Value Advisors Emerging Markets Composite was created May 13, 2019. Composite results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance is calculated using actual management fees. The annual composite dispersion is an asset-weighted standard deviation calculated for the accounts in the composite the entire year.

The investment management fee schedule for new business is as follows: 1.00% on the first \$25 million and 0.90% on all additional funds. Management fees are paid quarterly in arrears. Actual investment advisory fees incurred by clients may vary.
