\* As defined by the firm definition using the principles of Global Investment Performance Standards (GIPS®).

\*\* This information is presented as supplemental to the GIPS® report and includes Total Firm Asset plus Advisory Only Assets (such as Unified Managed Account (UMA) assets).

\*\*\* This information is presented as supplemental to the GIPS® report. Beginning in 2018, product assets also include advisory only assets managed to the International Small Cap Equity strategy.

<sup>+</sup> Results shown for the year 2019 represent partial period performance since inception from May 13, 2019 through December 31, 2019.

<sup>++</sup> Three year annualized ex-post standard deviation (using monthly returns).

<sup>+++</sup> Net 1 returns have been calculated using the highest actual fee charged to an investor in the strategy (0.60% prior to 2023 and 1.0% effective 1/1/23). Net 2 returns have been calculated using a model fee of 0.60%, which is the fee an investor in the strategy can expect to pay.

The three year annualized ex-post standard deviation of the composite and/or benchmark is not presented because 36 monthly returns are not available.

N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

*The Global Value Advisors Emerging Markets Composite contains fully discretionary equity accounts managed in the Emerging Markets style which seeks to outperform the MSCI Emerging Markets Index-Net over a complete market cycle.*

The Global Value Advisors Emerging Markets Composite was created May 13, 2019. The inception date of composite performance is May 13, 2019. Composite results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income.

Net of fee performance (1) was calculated by retroactively applying the highest model fee for the composite (0.60% prior to 2023 and 1.0% effective 1/1/23). Net of fee performance (2) was calculated by retroactively applying the highest model fee for the composite (0.60%), which is the fee an investor in the strategy can expect to pay based on the early adopter fee schedule. The annual composite dispersion is an asset-weighted standard deviation calculated for the accounts in the composite the entire year.

The standard investment management fee schedule for new business is as follows: 0.60% in perpetuity on all investments made prior to strategy assets reaching \$150 million, thereafter, 1.00% on the first \$25 million and 0.90% on all additional funds. Management fees are paid quarterly in arrears. Actual investment advisory fees incurred by clients may vary.
